

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-12. (Canceled)

13. (Previously Presented) An apparatus for obtaining data for acquiring a broadcasting program, the apparatus comprising:

a terminal configured to request said data for acquiring said broadcasting program to a provider and receive said data from said provider; and

storage means in said terminal configured to store said received data, wherein said data indicates a location information where said broadcasting program can be acquired and a time information including start time and duration of said broadcasting program.

14. (Previously Presented) The apparatus of claim 13, wherein said terminal requests said data by using IP address for said location information.

15. (Previously Presented) The apparatus of claim 14, wherein said terminal further includes a memory for storing said IP address.

16. (Previously Presented) The apparatus of claim 13, wherein said terminal further includes communication means for transmitting a request for said data to said provider and receiving said data from said provider.

17. (Previously Presented) The apparatus of claim 13, wherein said location information includes a broadcasting station name.

18. (New) The apparatus of claim 13, wherein the terminal requests the data and receives the data from the internet.

19. (New) An apparatus comprising:
a control device to request data relating to a broadcasting program and to receive the data; and
a storage device to store the received data, the received data including a start time and a finish time of the broadcasting program.

20. (New) The apparatus of claim 19, wherein the received data includes location information where the broadcasting program can be acquired.

21. (New) The apparatus of claim 20, wherein the data is requested by using an IP address of said location information.

22. (New) The apparatus of claim 21, further comprising a memory for storing said IP address.

23. (New) The apparatus of claim 19, further comprising a communication device to transmit a request for the data to a provider and to receive the data from the provider.

24. (New) The apparatus of claim 19, wherein the received data includes location information.

25. (New) The apparatus of claim 24, wherein the location information includes a broadcasting station name.

26. (New) A terminal comprising:
a communication device to send a request for data from the internet relating to a broadcasting program and to receive the data from the internet, the request including an IP address; and

a storage device to store the received data including a start time and a finish time of the broadcasting program.

27. (New) The terminal of claim 25, wherein the received data includes location information where the broadcasting program can be acquired.

28. (New) The terminal of claim 26, wherein said location information includes a broadcasting station name.

29. (New) The terminal of claim 25, further comprising a memory for storing said IP address.
